

GAUTAM KUMAR

Delhi, India | +91 8579800222 | gutmkumar21.03@gmail.com

PROFESSIONAL SUMMARY

Frontend Web Developer with hands-on experience in HTML5, CSS3, JavaScript (ES6+), and React, focused on converting UI/UX designs into responsive, cross-browser web pages. Comfortable working across the full front-end stack — from clean, reusable component code to site maintenance, bug fixing, and performance optimization. Familiar with Git-based version control and agile collaboration with designers and marketing teams. A detail-oriented, fast learner eager to grow under senior developers while contributing to live client projects from day one.

WORK EXPERIENCE

Front-End Web Developer — Skyscanner Job Simulation — Forage Virtual Experience May 2025

- Converted UI/UX design specifications into a responsive, cross-browser-compatible React web application using Skyscanner's Backpack design system, including a calendar-based date selector and custom UI components aligned with real production workflows.
- Installed and configured Backpack UI components (Bpk-component-calendar), customized layout via SCSS, and implemented interactive elements including a functional Continue button; tested functionality and performance across devices and browsers.
- Gained practical experience with CI/CD practices, front-end architecture patterns, cross-browser compatibility, and developer tooling used in production environments, working within an agile-style workflow.

PROJECTS

E-Commerce Frontend with Cart & Payment Integration — React · Redux Toolkit · Styled Components · React Query · Razorpay API

- Built a responsive, pixel-perfect e-commerce website — including product listings, search and filter, wishlist, cart management, and Razorpay payment gateway integration — reflecting storefront functionality similar to platforms like Shopify or WooCommerce.
- Implemented infinite scroll pagination, skeleton loading screens, and optimistic UI updates; used React Query for server-state management, reducing redundant API calls by 60%.
- Collaborated with backend API endpoints to ensure seamless data flow, identifying and resolving UI issues to maintain clean separation of concerns and consistent responsive design across all devices.

AI-Powered SaaS Analytics Dashboard — React · TypeScript · Tailwind CSS · Recharts · WebSockets · REST API

- Built a full-featured SaaS analytics dashboard with dynamic charts, real-time data updates via WebSockets, and responsive multi-layout UI following Atomic Design principles.
- Implemented JWT-based authentication, role-based access control, and dark/light mode theming with fully reusable component architecture — demonstrating code quality and scalability.
- Optimized performance using code-splitting and lazy loading, achieving a 40% reduction in initial page load time; wrote integration tests to ensure application stability.

3D Interactive Developer Portfolio — React · Three.js · Framer Motion · EmailJS · Vercel

- Designed and developed an immersive 3D portfolio using React and Three.js with scroll-triggered animations, GPU-accelerated particle effects, and custom GLSL shaders.
- Integrated EmailJS for serverless contact form handling; deployed via Vercel CI/CD pipeline achieving a Lighthouse performance score of 95+ with fully responsive design.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, C, C++

Frameworks & Libraries: React.js, Redux Toolkit, Tailwind CSS, Styled Components, Three.js, Framer Motion

Tools & Version Control: Git, GitHub, Vite, Webpack, Vercel, CI/CD pipelines

APIs & Real-Time: REST APIs, WebSockets, React Query

Web Fundamentals: Responsive & Cross-Browser Design, Design-to-Code Conversion, UI Debugging & Maintenance

Other: DSA (C++), AI Tools, Prompt Engineering

EDUCATION

B.Tech in Computer Science Engineering — St. Andrews Institute of Technology and Management, Gurgaon | MDU Rohtak

2023 – 2026 | Grade: 68% | Currently pursuing degree

Diploma in Electronics and Communication Engineering — PUSA Institute of Technology

2019 – 2022 | Grade: 72%

CERTIFICATIONS

- Technical Support Fundamentals — Google
- Crash Course on Python — Google
- JavaScript Course
- DBMS Course
